**NOTICE TO ALL STUDENTS**

The University wishes to inform ALL students that there has been a delay in the generation and posting of fee balances on the portals. This was due to a temporary technical hitch that affected the billing process.

We are pleased to inform you that the issue has now been resolved and the billing process is underway.

You are, therefore, advised to check your portals at the end of this week to confirm the updated fee balances.

The University appreciates your patience and understanding during this period.
